

PROJECT NAME: COACHING FOR GOOD (C4G)
--

THE BRIEF: To design a client-centered, cutting-edge, and intuitive **coaching digital platform and application** with multiple functionalities targeted at Coaches, Academic Institutions, and organisations in public and private sectors.

1. TARGET MARKETS

- **Independent professional coaches:** These are individuals with deep expertise in coaching who will be providing coaching services on the C4G Platform and app. These coaches will be vetted by the C4G team before they are accredited to provide their services on the C4G platform.
- **Academic Institutions:** These are higher education institutions primarily those offering executive development programs, and business schools that will enroll their students to our platform to select their preferred coaches. The virtual coaching sessions will be held on the C4G secure platform
- **Public and Private Organisations:** These organisations cut across the energy/oil and gas industry, healthcare; manufacturing; mining; leisure and hospitality; Information, Communications and Technology, Financial Services, and Retail sectors

2. STRATEGIC GOALS

- **Simplify Admin:** provide online agreements and automated billing whilst reducing administrative work for coaches
- **Boost client Retention:** Through effective in-built customer relationship management capabilities and Artificial Intelligence

features, the platform and app should enhance client engagement via interactive milestone tracking.

- **Secure Payments:** Ensure smooth billing and subscription management in a very secure payment environment
- **Track and report:** Timely data can be generated for insights and decision making on the platform, on coaches and coachees performance. Dashboard can be generated instantly on the platform
- **Platform Access:** Responsive web application (desktop-first) and native mobile apps

3. COMPETITIVE ENVIRONMENT

These companies tend to offer coaching services online:

- www.torch.io
- www.coachhub.com
- www.ezra.com
- <https://workbravely.com/>

4. KEY FUNCTIONALITIES

4.1 User Management & Profiles

- **Dual Roles:** Separate user onboarding flows for coaches and clients.
- **Coach Directory:** Discoverable, searchable profiles with bios and specialties.
- **Smart Matching:** Quiz-based recommendation engine matching clients to coaches.
- **Verification Badges:** Visual indicators for vetted credentials and certifications.

4.2 Scheduling & Calendar Integration

- Live Availability: Two-way sync with Zoom, Teams, Google, Outlook, and Apple calendars.
- Time Zone Detection: Automatic adjustment based on user location.
- Booking Engine: Direct booking for single sessions or multi-week packages.
- Buffer Times: Automated padding between sessions to prevent burnout.

4.3 Communication Hub

- Video Conferencing: Built-in WebRTC video calling with recording capabilities.
- Secure Chat: Real-time text messaging with file-sharing permissions.
- Virtual assistance as the potential coachee surfs on the website
- CRM capabilities for customized mailings/communication campaigns

4.4 Goal Tracking & Accountability

- Milestone Dashboard: Shared visual roadmaps for tracking client progress.
- Shared Journal: Private digital workspace for session notes and homework.
- Habit Tracker: Daily check-ins for clients to log specific behaviors.

4.5 Payments & Invoicing

- Gateway Integration: Secure processing via Stripe and PayPal.
- Flexible Billing: Support for subscriptions, payment plans, and one-off fees.
- Automated Invoices: Instant PDF receipt generation for tax documentation

4.6 Security & Compliance

- Data Privacy: Full GDPR and HIPAA compliance for sensitive client notes.
- Encryption: End-to-end encryption for chat messages and video data.

4.7 Content & Resource Management

- Resource Library: File depository for coaches and coachees to upload PDFs, videos, and worksheets.
- Content Gates: Access control linking specific files to specific payment tiers.
- Template Builder: Creation tools for reusable intake forms and feedback surveys
- Monthly newsletters to be created and disseminated from the platform and also stored in the platform.

4.8 Analytics & Reporting

- Dashboard: Visual graphs tracking monthly revenue, retention rates, and active clients by coach; tracking numbers of coachees by

company and revenues generated; tracking total number of coaching hours; monthly best performing coach based on revenues generated, etc.

- Client Progress: Visual charts showing habit consistency and milestone completion.

Note: The above key functionalities are not exhaustive. Additional functionalities will be considered if they are value add and can give C4G the competitive edge.

5.TIMELINES:

The digital platform to be operational by Friday 19th June 2026

The C4G app to be operational by Friday 03 July 2026

6.NEXT STEPS:

Please, based on the above-mentioned detailed brief, do submit your proposal by no later than **Wednesday 20th May 2026, 5:00 PM (GMT)** to:

Email: nathinno@gmail.com
